

AND SO IT WAS SAID...

'Let there be light...meters'

L-358 FLASH MASTER

Rugged compact all-weather design. Flash ambient analyzing, exposure calibration compensation with built-in Jog wheel and cine shutter speeds up to 360 fps.

L-608 ZOOM MASTER

Multi function Incident, zoom Spot meter and flash meter with shutter speed, cine speed, aperture, EV and Average measurement. Optional plug-in radio transmitter module available.

Sometimes you only get one chance... you can trust in the accuracy of Sekonic professional light meters.

For creative photography and cinematography.

L-308BII FLASH MATE

World's smallest and lightest flash and ambient meter with built-in sliding lumisphere. LCD panel provides large clear data display. ± 0.1 EV accuracy.

SEKONIC
