

# You're doing more for your students

We're here to help

## We support you with the tools you need for a smooth transition to a blended learning environment

- Book a free one-on-one consultation with a Microsoft Education Specialist. We can discuss your virtual learning environment and find ways to make it better.
- Discover more about our free training sessions for your faculty or IT department
- Explore some of our free virtual sessions for students using platforms including Minecraft and MakeCode
- Stay up-to-date with the latest resources, trial offers and system improvements that could benefit you and your school

### Workshops on offer

Teams for Education: Beginner, and Advanced

Creating authentic assessments with Forms and building literacy with visual summarising in Sway

OneNote Class Notebook: Teacher's all-in-one notebook for students and Staff Notebook for staff collaboration

Flipped learning with PowerPoint and Stream

Organise your tasks in Teams with Planner

Beginners guide to Office 365 and OneDrive
